# Jeremy Straub

Associate Professor at NDSU Computer Science  
Fargo, North Dakota, United States

## Summary

Jeremy Straub is an Associate Professor in the Department of Computer Science at the North Dakota State University. He holds a Ph.D. in Scientific Computing, an M.S. and an M.B.A. and two B.S degrees. He has published over 40 journal articles and over 120 full conference papers, in addition to making numerous other conference presentations. Straub's research spans the gauntlet between technology, commercialization and technology policy. In particular, his research has recently focused on robotic command and control, aerospace command and 3D printing quality assurance. Straub is a member of Sigma Xi, the AAAS, the AIAA, SPIE and several other technical societies, he has also served as a track or session chair for numerous conferences.
