  "transcription": " What's your name? My name is Russ. Russ, what do you love the most? I love  
the ocean. The ocean? Yeah, I love the ocean. I wanted to be a marine biologist for most of my life,  
but I figured out I couldn't make any money doing that, so I went into software engineering.  
Congratulations. Hot choice. So what is your expectation? What would you like to gain the most  
from today's event? New connections. I'm meeting y'all right now. It's amazing to meet y'all. to meet  
you all. Got new friends now. And yeah, just meeting people, building cool stuff and, you know, all of  
us moving, moving things forward together. Great. Thank you so much. You're welcome. Yeah, we  
hope that we're going to meet you with someone."
